

“Elderly patients value their independence, and I like to help them achieve it by providing the best care.”

About Amesha Whitlock , NP

Amesha Whitlock knew in middle school that she wanted to work in healthcare. She explains that nurse practitioners “not only address patients’ current, acute problems but promote health in all areas of life.” Amesha Whitlock loves serving the senior population. “Elderly patients value their independence, and I like to help them achieve it by providing the best care,” she says. If Amesha Whitlock could change anything about the current healthcare system, she would make appointments more accessible. “Having easier accessibility to physicians and nurse practitioners would benefit patients as a whole,” she says.

When not caring for patients, Amesha Whitlock enjoys traveling with her family. She also loves watching and playing basketball.
