**“I value each and every patient
as my own blood.”**

About Thomas Joseph, MD, FACP

As a physician, Dr. Joseph Thomas strives to positively impact people's lives. His favorite part of his profession is listening to patients' stories. “I value each and every patient as my own blood,” he explains. He loves caring for the senior population and says he feels a special connection with them. “They are open books of love, fear, success, and failures,” he says. To keep up with the latest medical advancements, he reads research papers and attends conferences. If he could change anything about healthcare today, he would allow more time for visits.

When not caring for patients, Dr. Joseph enjoys spending time with his kids, gardening, and riding his motorcycle. He is also interested in horology and loves trying new things.
