**“I love to get to know each patient personally and cater to their unique needs, desires, and goals.”**

### About Jenny Song, DO

Dr. Jenny Song explains that “the amalgamation of humanity and science” is her favorite part of working in healthcare. “I love to get to know each patient personally and cater to their unique needs, desires, and goals,” she says. She considers it an honor to serve the senior population. “They bring in so much wisdom, experience, and knowledge to all of us, helping us learn and grow,” she explains. She strives to be “present and available” to her patients. “It is a privilege to take care of their needs and become a partner in their care,” she says.

In her free time, Dr. Song can be found reading or writing while lounging on the beach. She is also interested in marine biology and enjoys studying the sea.
