**“My favorite part is building long-term relationships with patients and their families.”**

### About Vander Singh, MD, FAAFP

Dr. Vander Singh knew at a young age that he wanted to be a doctor, accrediting his passion for helping others and serving as a role model for his community. “My favorite parts are building long-term relationships with patients and their families and making patients’ discomfort go away,” he says. He enjoys making “a meaningful difference” in the lives of his patients, particularly seniors, “by providing compassionate care.” He strives to empower patients “to lead a more independent life.” He explains, “I listen to my patients’ history and concerns and make a plan that is best and doable for my patients.”

In his free time, Dr. Singh can be found hiking with his family, playing with his cat, or volunteering at an animal shelter.
